Project Title: 2016 California Building Energy Efficiency Standards for Residential and Nonresidential BuildingsProject Applicant: California Energy CommissionProject Location (include county): Statewide

## Project Description:

Triennial update to the Building Energy Efficiency Standards found within California's Building Code. The updates will ensure more efficient use of natural gas, electricity, and water in newly-constructed buildings, as well as in additions and alterations to existing buildings. The Standards are also known as the California Energy Code, and are in part 6 of title 24 of the California Code of Regulations, with associated administrative regulations in part 1, chapter 10. The updates include the associated ACM Approval Manual, and Joint, Residential, and Nonresidential Appendices.

This is to advise that the California Energy Commission has approved the above
